

# Saint Joseph Catholic School Winter 2024 Star Test Scores

Starting in 2018, the Archdiocese of Denver selected the nationally-administered Star Math and Language Arts tests as the standardized tests to be utilized at all of its schools.

When all students who have taken one of the Star tests are divided into four nationwide groups based on their percentile scores (0-24, 25-49, 50-74, and 75-99), each group always contains 25% of the students:

The following graphs show the percent of students who scored in each percentile score group during Star tests administered at Saint Joseph (compare the size of the two top groups in each graph with the national average):
